Diversity

Both universities have implemented many diversity measures that will support SyNergy in its efforts to support young scientists, women and families.

A special focus will be on international scholars, where the international offices of both universities and SyNergy's Newcomer Center will collaborate.

A second area of focus is to support SyNergy scientists with families: SyNergy will provide financial support for child care and laboratory work to its scientist-parents (see inside).

6 applications... !

Application documents

(to be submitted to the office of the SyNerg Cluster)

- a written application (including a statement of reasons and given expectations, e.g. it shall demonstrate the current situation relating to individual child care/domestic care and justify how, on the basis of the granted allowance, the professional situation may be improved.)
- curriculum vitae
- list of publications
- approval of the group leader
- birth certificate(s) of child/children or confirmation of pregnancy / expected birth date (if appropriate)
- confirmation of full- or part-time employment of the SyNerg scientist and of his/her spouse.
- official confirmation from the daycare of the monthly costs
